

STARTING COMPANY — DETAILED RATE CARD

Easy → Moderate Projects | Web + Android | Backend | Payments | Infrastructure | Maintenance

Pricing model: Development fee ███ ████████ Domain, hosting, cloud/server, database, storage, email/SMS, payment gateway
 ███ other third-party infrastructure ███ **actual provider cost client** ███ ███ ███ ████████ Company infrastructure manage ██████
 ███ ███ agreed maintenance/management charge ███ █████ ███.

1. DEVELOPMENT PRICING

Project Type	Suggested Price	Typical Scope
Landing Page	■2,000–4,000	1 responsive page
Basic Business Website	■4,000–8,000	4–6 pages, responsive
Website + Basic Backend	■7,000–12,000	Forms/API/basic DB
Basic Admin Panel	■10,000–15,000	Admin login + CRUD + dashboard
Small Full-Stack Web App	■15,000–20,000	Frontend + API + DB + auth
Moderate Web App	■20,000–25,000	Multiple modules + API + DB + auth
Web + Android App	■25,000–35,000	Web + Android + shared backend
Web + Android + Admin	■30,000–40,000	Moderate complete product

2. PAYMENT INTEGRATION

Basic se slightly-above-basic payment integrations tumhare current service scope mein rakhe ja sakte hain. Gateway/provider account, transaction fee ■■ other provider charges development fee ■■■ ■■■■■ ■■■■ ■■■■■■.

Payment Feature	Development Fee	Includes
Basic Gateway	■3,000–5,000	Checkout/initiation + success/failure flow
Intermediate Gateway	■5,000–8,000	Gateway + server verification + webhook/status
Payment + Orders	■8,000–12,000	Payment + order DB + status + admin visibility
Refund Flow	■3,000–6,000 extra	Refund/status workflow where supported
Recurring/Subscription	■5,000–10,000 extra	Provider-supported recurring billing

Rule: Payment provider ■■ transaction fees, merchant fees, taxes ■■ account charges client ■■ actual cost ■■■■; company ■■■■■■ absorb ■■■■ ■■■■.

3. INFRASTRUCTURE — ACTUAL COST + MANAGEMENT CHARGE

■ section mandatory billing rule ■: **Infrastructure** ■ actual cost ■■■ ■ charge ■■■■. ■■■■ ■■■, ■■■ company setup/monitoring/maintenance manage ■■■■ ■, ■ applicable management/maintenance charge ■■■ ■■■■.

Infrastructure	Billing to Client	Company Management Charge
Domain	Actual registrar cost	■200–500/year if managed
Vercel	Actual plan/usage cost	■500–1,500/month if managed
Render	Actual plan/usage cost	■500–1,500/month if managed
AWS	Actual AWS usage/bill	■1,000–3,000/month for management/ops
Azure	Actual Azure usage/bill	■1,000–3,000/month for management/ops
Other Hosting	Actual provider cost	■300–1,500/month if managed
Database/Storage	Actual provider cost	Covered by maintenance or separately quoted
Email/SMS/OTP	Actual provider usage	Setup/maintenance separately if applicable
Third-party API	Actual provider cost	Integration fee + maintenance if needed

Example: ■■■ hosting provider ■■■ actual bill ■800/month ■■ ■■■ company server monitoring/maintenance ■■ ■■■ ■700/month ■■■■■ ■■■, ■■■ client invoice ■■■ ■800 actual infrastructure + ■700 management/maintenance = ■1,500/month ■■■■■■■ ■■■■■■■ ■■■■■■■

No hidden markup policy: Actual provider cost █ clearly identify █. Company █ margin/management charge █ line item █. █ client billing transparent █.

4. MAINTENANCE PLANS

Plan	Monthly Fee	Includes
Basic	█500–1,000	Bug fixes + minor maintenance
Standard	█1,000–2,000	Updates + small changes + basic monitoring
Active	█2,000–4,000	Frequent updates + monitoring + maintenance
New Features	Separate quote	Any feature outside agreed scope

Infrastructure and maintenance are separate concepts: Client cloud/hosting bill pays for infrastructure. Maintenance pays for your/company's technical work. █ hidden amount █ mix █.

5. DEPLOYMENT & SETUP

Work	Suggested Charge
Basic deployment	█1,000–2,000
Web + API deployment	█2,000–3,000
Web + Android release setup	█2,000–4,000
Domain + DNS + SSL setup	█500–1,500
Production environment setup	█1,000–3,000
CI/CD basic setup	█1,000–3,000

6. BACKEND / DATABASE / API ADD-ONS

Feature	Suggested Charge
REST API	█2,000–5,000
Authentication	█2,000–4,000
Role-based access	█2,000–5,000
CRUD module	█2,000–4,000/module
Database design/setup	█2,000–5,000
File/image upload	█1,500–3,000
OTP/email integration	█2,000–4,000 + provider cost
Third-party API integration	█2,000–6,000

7. SAMPLE QUOTATIONS

A. Moderate Web App

Component	Example
Frontend	■10,000
Backend + API	■6,000
Database	Included
Authentication	Included/basic
Admin Panel	■4,000
Deployment	■2,000
Development Total	■22,000
Maintenance	■1,500–3,000/month
Infrastructure	Actual cost + management charge

B. Web + Android + Intermediate Payment

Component	Example
Web App	■10,000
Android App	■8,000
Backend + API + DB	■6,000
Admin Panel	■3,000
Intermediate Payment Integration	■6,000
Deployment	■2,000
Development Total	■35,000
Maintenance	■1,500–3,000/month
Infrastructure	Actual cost + management charge
Gateway transaction fees	Client actual cost

8. PAYMENT TERMS

Recommended: 40% advance → 30% staging/MVP → 30% production launch. Small projects ■■ ■■■ 50% advance → 50% delivery ■■ use ■■■■ ■■ ■■■■ ■■.

9. SCOPE CONTROL

Included	Separate Charge
Approved pages/modules	New pages/modules
Approved integrations	New integrations
Specified payment gateway	Additional gateways
Android app	iOS app
Agreed revisions	Major redesign
Bug fixing	New functionality

10. ANDROID / IOS POLICY

Android: Included in applicable packages.

iOS: Currently not offered and not included. iOS development/App Store deployment will only be added after the team has the required capability.

11. CLIENT BILLING STRUCTURE — RECOMMENDED

■■ project invoice/quotation ■■■ recurring costs ■■ ■■■ line items ■■■ ■■■■■■:

Line Item	Billing
Development	Fixed project fee
Deployment/Setup	One-time fee
Domain	Actual registrar cost + optional management fee
Hosting/Cloud	Actual provider cost
Infrastructure Management	Monthly management/maintenance fee
Third-party APIs	Actual usage/provider cost
Payment Gateway	Integration fee + actual gateway charges
Maintenance	Monthly agreed fee

12. QUICK QUOTE TEMPLATE

Project: _____
Development: ■ _____
Payment Integration: ■ _____
Admin/Backend: ■ _____
Deployment: ■ _____
Domain: Actual cost + ■ _____ management/year
Hosting/Cloud: Actual provider cost + ■ _____ management/month
Third-party APIs: Actual cost
Maintenance: ■ _____/month
Platform: Web + Android
iOS: Not included
Payment Terms: _____
